## Video #2 – Hybrid MA Program

Voiceover

Online learning doesn't have to be completely hands off. This is why we completed a new medical assistant hybrid program.

Nick Montes

We created the hybrid program to allow students to experience the best of both worlds. They can attend class virtually 3 days out of the week, and then come into campus 2 days out of the week for their hands on training.

Past Student

I loved this class! You get to experience it both online and in person!

Best of both worlds! It was a lot of fun. Time flew by and before I knew it, I was graduated.
